

Quality Policy

Our policy is to provide a range of Metal Detectors, Pipe and Cable Locators, related products and services that meet relevant regulatory requirements and meet or exceed our customer's expectations.

We are committed to and operate a Quality Management System conforming to the standard ISO 9001 :2015.

Objectives are identified, defined, reviewed and recorded at the Management Review Meetings.

We monitor our products, services, processes, customer feedback and this policy with the objectives of: -

- a) Maintaining the effectiveness of the Quality System
- b) Continual improvement

We are individually and collectively responsible for implementing this Quality Policy.
